STATE OF MAINE.

LAND OFFICE,
BANGOR, May 1, 1858.

In the discharge of my duty as Agent to sell and manage the sale and settlement of the Public Lands of the State, the following is hereby given of the

Terms and Conditions of Sale:

1st. Revised Statutes of Maine, Chapter 5 sections 1 to 4 inclusive, the provisions of law in relation to

Sale of Lands for Settlement.

1st. Out of townships located and designated for settlement, the Land Agent shall, from time to time, select, not exceeding ten in a year, and offer for sale in lots for settlement; and the owners of the township shall be entitled to a settlement in former years, in the order of application for sale, in some paper in the County in the State in which any paper is published, once a week for three months, within one year after the selection is so made, with a notice and the march of this chapter as regards the terms and conditions of the sale and settlement of such lots.

2d. In townships so selected, in which the roads have not been located, the Land Agent shall cause such roads to be located as the convenience and the accommodation of the future settlement may require.

3d. In the case of the settling lots shall be first tendered to the party which the purchaser shall give the Land Agent notice of, and shall thereupon give him a certificate, which shall be his become a purchaser of the lot therein described. And that he will be entitled thereto, when he complies with the requirements of law. The certificate of the Land Agent to the Land Agent to superintend the laying out of the labor on the roads, in evidence of the payment of the notes.—

4th. No lot, not exceeding two hundred acres, shall be sold to the same person.

5th. Beside the payment of the notes, every purchaser shall be required, within two years from the date of his certificate, to establish his residence on his lot, and within four years to have made to clear, on each lot, not less than ten acres, ten at least of which shall be well fitted for grass; and to build a comfortable house thereon.

6th. If the purchaser fails to perform any of the conditions required of him, or to pay his notes, he shall forfeit his right to the land, and the Land Agent may dispose of it to another person.

7th. The Land Agent shall appoint some suitable person in the township to perform the location of settlers, the payment of the notes, and the performance of their duties.

8th. We ever purchaser of a lot of wild land not exceeding one hundred and sixty acres, who complies with the conditions of this act, shall hold it with the improvements free from attachment and levy on execution, if he remained in actual possession thereof, for the space of six years, and if no attempt shall not exceed one thousand dollars, to be set off to the owner in the manner of the lot as he directs, by the appraisers appointed to levy an execution, the same to be set off and appraised on execution.

9th. On the decease of such purchaser, the land and the improvements shall descend to his heirs, subject to his widow's right of dower, and shall not be liable to be sold for the payment of his debts, except in case his other property is not sufficient for the payment thereof; in which case, his children shall have the benefit of the improvement thereof, subject to the dower, until the youngest surviving child shall be of the age of eighteen years. The remainder of the estate, after the life estate of the widow and after the youngest surviving child attains the age, may be sold as other estates of deceased persons for the payment of such debts as the children of the deceased is not sufficient to pay. If he dies without issue, such lot shall descend and be disposed of as any other property.

10th. If a non such purchaser, having a wife, shall convey his said lot by deed, unless his wife joins therein, and acknowledges it to be her free act and deed, before a proper magistrate.

11th. The Land Agent may sell at public or private sale for such price as he considers fair and for the interest of the State all tracts of land owned by the State on islands or in incorporated towns.

Under the provisions of this law, there have been already located and designated for settlement, and by former Land Agents selected and published for sale, the following townships, viz.

Township	Acres	Township	Acres
B. R. 1,	6747	9, R. 4,	21,318
B. R. 1,	10,092	12, R. 4,	22,890

Republican Nomination.

FOR GOVERNOR,

LOT M. MORRILL

CONGRESSIONAL CONVENTION.

Sixth Congressional District.

The Republicans of the Sixth Congressional District will meet in Convention, at Gardiner, on FRIDAY, the sixteenth day of July next, at ten o'clock A. M., for the purpose of nominating a candidate for Representative in the next Congress, from said District.

Each city, town and plantation will be entitled to one delegate, and one additional delegate for every fifty votes thereon for the Republican candidate for Governor in 1857.

W. S. SMITH,
JOSEPH S. TALL,
GEO. W. DYER,
SAM'L WASSON,
JOHN L. MOORE,
} Congressional Com. of Call.

June 19, 1858.

Resolved, That this Convention views with alarm the recent proposition made in the Congress of the United States to open American ports to the vessels of the British North American Provinces for the purpose of engaging in the coasting trade of the United States. To admit the cheaply built and cheaply sailed vessels of our Provincial neighbors to our coasting trade would be utterly destructive of two of the leading interests of this district—navigation and shipbuilding.

Resolved, That in view of the depressed condition of trade, commerce, manufactures and agriculture of the State; of the sacrifice of our lumber and fishing interests under the reciprocity treaty; of the recent movement to abolish the fishing bounties; of the threatened attempts to introduce Colonial vessels into our Coasting trade; of the important interests involved in the revision of our tariff, that it is the imperative duty of the people of this Congressional district to unite in electing to the next Congress, a man who has the will and the ability to maintain their interests and assert their rights.—*Resolutions of Sixth District Democratic Convention.*

That a desperate effort is now made to delude the voters of the Sixth Congressional District is plainly to be seen, both in the character of the nominee of the sham democracy and in the nature of the resolutions of the Convention. The scheme is deep laid—but the best laid schemes of mice and men oft gang astray. The same thing has been once successfully tried on in the Eastern District, and is therefore not likely to succeed again. Mr. Thomas J. D. Fuller was shrewd enough not to vote for the repeal of the Missouri Compromise in 1854, and being placed on the track as an anti-Nebraska man, got elected in consequence by the skin of his teeth. But the moment he returned to Congress he became one of the most subservient tools of the administration and of the pro-slavery democracy, —"acquiescing" in the repeal of the Compromise and voting always in such a way as to give a triumph to the enemies of freedom throughout the Kansas struggle—and when the people indignantly repudiated him, and sent a Republican to Congress in 1856, the administration pensioned Fuller off with a fat place at Washington. So of Mr. Rion Bradbury,—just nominated by the convention which puts forth the above and other juggling resolutions to cheat the people. He is to stump the District, and make the fairest professions of anti-Lecompton principles, and the fairest promises of what he and his party will do touching our fisheries and our navigating interests. But the ruse is not to be tried, and the people know it. He will be like Fuller—all things to all men before election, and then, one of the strongest supporters of the administration in its Lecompton Kansas policy, and its subservient follower in conceding to Southern demands for vengeance against the North by the destruction of Northern interests.

Does any voter of the Sixth District doubt this? Let him remember that while the Democratic Convention for that District, in the resolutions quoted above, makes a parade of sustaining the fisheries and navigating interests of the District—let him remember, we say, that IT WAS A DEMOCRATIC SENATE WHICH VOTED TO REPEAL THE FISHING BOUNTIES—EVERY REPUBLICAN SENATOR VOTING AGAINST THE REPEAL—and let him also remember that IT WAS A DEMOCRATIC COMMITTEE WHICH REPORTED IN FAVOR OF REPEALING THE NAVIGATION LAWS, saying it was only a question of time as to the adoption of that policy. This is the record of the democratic party in Congress upon the navigation and fishery questions. Will Rion Bradbury, if elected, act in opposition to his party? *Was he ever known to do so?* He may vote, as a Maine man, against the repealing policy, but will stand by his party and acquiesce in its doings, even if it does destroy our interests.

The voters of the Sixth District know that the Republican party,—in Congress and out—has stood up boldly and successfully in defence of the interests of Maine. They know that the faithful Republican member from that District, Hon. Stephen C. Foster, with his Republican colleagues, battled manfully in opposition to the repeal of the fishing bounties, which was urged by the democratic Senators; and that the Republicans will be found equally vigilant and energetic in resisting every attempt to open our coasting trade to the cheaply built and cheaply sailed vessels of the British Provinces. Knowing this, and knowing on the other hand, that the sham democratic party has stamped, to strike down these great interests, they will not be likely to vote for anyone of that party, simply because a lot of men have met together in Convention, and made a bunch of meaningless resolutions, not worth the paper they are printed upon.

The specimens above quoted are as good as anything we remember in the political line. "This (democratic) Convention views with alarm" "the proposition to open American ports to the vessels of the British North American Provinces." Are we, we say, made that proposition? A democratic Congress or a democratic Senate. Is there any question of the administration party in Congress who make the proposition? And yet, Bronson, they view it "with alarm." This "democratic" Convention also resolves "in view of the recent attempt to abolish the fishing bounties," &c., that "it is a very impressive duty to elect somebody who will meet our rights." Who made the attempt to abolish the bounties? Was it democratic Senators or Representatives? And who can be found more able and willing to assert the rights of the District than the Republican member who proved himself to be Rion Bradbury never will do it, so long as the administration is under Southern control, and he follows it as he will do to the bitter end?

The Stamping Press. Mr. T. P. Shaffner, a gentleman practically and scientifically versed in telegraphing, publishes a letter in the Washington papers, stating his belief that a current of electricity of a known force, or mode of generation can be transmitted through a submerged wire for a distance of two hundred miles. He predicts that he cable will be laid a thousand or more miles sooner than be found unavailable for telegraphing. "In this discussion the company will have the cable broken again and the blame will be charged to Professor Morse. This will be the *focus*." The Images can's now in existence strung from Varna to Balaklava, across the Black Sea, a distance of 340 miles. The manufacture of the cable, and other expenses of the Company, already amount to upwards of a half of dollars.

We believe this Mr. Shaffner has a "family" telegraph scheme of his own, and got a permit from the British Government, to run a line by way of the Faroe Islands, Iceland and Greenland, to Labrador, and so to the American coast.

The Charleston Sleve says that John Mitchell's boldness seems to surpass his discretion and modesty, and he knows as well as anyone that if the whole South had longed to hang Mitchell so but Hayne Herse in defence of the "peculiar institution," said in favor of re-opening the slave trade, that he would be the contempt of the same Southerners.

Good Buying. Mr. H. G. Pitcher, at the Mutual Store in Norombega Market, has his arrangements so thoroughly completed that he is able to supply an excellent article of butter at all seasons. He are remarks keeping it sweet and ripe, and he asks customers feel sure of always obtaining a good article.

The Republican Convention for the Third Congressional District is to meet at Lock and on Friday the 13th of August. The nomination for the next two Congresses is to be made by the Lincoln part of the District.

The New York Express intimates that the Americans of Illinois will support Douglas.

Washington Matters. We take the following from the correspondence of the New York Herald:

"In reply to the invitation of the British government that our government suggest some plan for an arrangement to do remove the character of suspected reserve at sea, the administration informs the British government that it cannot see any plan that will not be open to grave objections, and is inclined to produce greater evils than those sought to be prevented, but will consider any proposition that may be made by her Majesty's government."

Wild Cat. A gentleman having in his possession ten or twelve hundred dollars of a certain banking institution lying at Wild Cat, went up to the country, one fine morning, and addressed the teller in the following language:

"Good morning, sir! Beautiful weather sir. About I have something over a thousand dollars worth of your money in my pocket—Do you redeem it?"

The teller bows—

"Good morning sir" (smiles blandly, and answers)—"We redeem, sir, but we do not pay specie."

"Do not pay specie, sir? I am astonished, I suppose?"

"Suspended."

"What do you redeem with?" was the next question.

"With bills on other banks," replied the clerk most pleasantly.

"And those, I presume, are also non-specie paying banks?"

"Very probably they are, sir," replied very politely.

"Well, then, what kind of bills can you give me?"

"Most any kind, sir. Give you Red Cat?"

"Can't stand."

"Well, then, how's Grey Cat?"

"Wouldn't give a straw for a hatful of them."

"What do you say to Black Cat?"

"Taint worth a cuss!"

"Well, I'll try and see if I can't get a few with White Cat."

"It wouldn't be any accommodation at all. I don't want your infernal Wild Cat money—neither Red Cat, Grey Cat, Black Cat, White Cat, nor Tom Cat. I wouldn't use it to bolster a horse with! Don't you get some money in Eastern banks?"

"No, sir," softly and very politely—"Eastern banks are principally specie paying institutions."

"If not Eastern, then have you bills on any other banks that are specie paying?"

"No, sir," bowing more near so politely.

"Well then," (drawing the package from his pocket with a desperate expression of countenance) *"take your good-for-nothing, assisted counterfeit bills on any bank that pays specie!"*

"No, sir," very low, and looks as if he felt insulted.

An exchange speaks of boys pelting chickens by way of relation. "This is a very cruel reddeer game!"

Forbidden the Bonds.—Hon. [illegible], one of the negroes confined in the House, on Tuesday, awaiting his trial for larceny—was [illegible] made his escape therefrom but soon captured. It seems was under bonds to appear and remain before the Municipal Court in Boston for stealing. His companion in the same complaint, in Boston, was recently sent to two years and a half in the House of Correction in that city.—*State of Maine.*

LOCAL AND MAINE NEWS.

The Provincial Railway to Aroostook.—The correspondent of the "State of Maine" writes thus from Woodstock, N. B., July 7th:

Through the politeness of Col. Tupper, I yesterday visited the line of the St. Andrews and Quebec Railway. There are now at work upon the line one hundred men, and the road is being vigorously pushed on towards the St. Lawrence river there to connect with the Grand Trunk line of Canada.

The capital stock of the St. Andrews and Quebec railway, is $3,000,000. The Province of New Brunswick, guarantees this road six per cent interest on $400,000, gives them a strip of land ten miles in width along the whole line of the road. The government also subscribes for one half of the stock issuing its debentures for the same. The liberality shown by the Province in aiding the road, presents a marked contrast to the narrow mindedness of Maine, in refusing aid to the Aroostook road.

And to this "narrow mindedness" of the State, which the correspondent of the Portland paper speaks of, may be added, as one reason of the failure last winter, the *short-sightedness* of some of the Portland people, who were the most determined against giving the aid which was asked from the State. If the Aroostook railroad is not built, the St. Andrews road taken, and will continue to take, all the business of that whole section, of *our* State. This important and increasing business will aid and encourage the completion of the St. Andrews road through to the Grand Trunk line opposite Quebec—but without this encouragement its completion would be a matter of much doubt. The Aroostook business will at least help to raise money in England for the ultimate completion of the line through to Quebec. *If it is completed*, a large portion of the business of the Canadas, now apparently destined to pass through Portland as a shipping port to and from England, will pass to the New Brunswick or Halifax terminus of the provincial line. This will not only give the English a road exclusively over their own territories, and under their own control in case of war, but it will be as short a route as any in point of time, between Carlisle and Great Britain. About one day's steaming on the ocean will be saved between Portland and the Lower Provinces—which is equivalent to 300 miles of railroad travel; and the St. Andrews and Quebec road will secure not about that number of miles more of railroading from the junction at Richmond, Canada East, thus from Richmond to Portland. The English government will be likely to favor their own line for exclusively English business. Is it for the interest of Portland, then, to have the Aroostook business go to the St. Andrews road?

Mourning Meeting. A daily religious meeting is now held at the Union Street (Methodist) Church, commencing at 8 and closing at a quarter before 9 o'clock. All are invited to attend.

Tourjée's and Whitby's Circus will arrive here to-day at noon, in their steamboat, in which the company goes from place to place.

A Sarah Bright. The Belfast Age says that Adjutant General Webster, at his rooms in the capitol, has caused to be mounted upon a stationary bearer, one of his venerable field pieces which was so long in the charge of the old Artillery company in Belfast, and which has so many times waked up the echoes of "Deputy Hollow" on the advent of the glorious "Fourth." This cannon was issued by the Commonwealth of Massachusetts to a military company within the present limits of Maine, about sixty years since. It has raised upon it the figure of an Indian, and a star. At the time of the gun-house Vandalism this cannon was buried away by patriotic friends, who knew its history, and who remembered its services, and recollected the many cherished occasions on which it had spoken, and was by them buried in the hours of its silence, until future generations should find sufficient patriotism to preserve this memorial of a more heroic age. It has been recovered, and now occupies a position of honor worthy its history.

That List of Delegates to the Democratic State Convention, which was advertised for by the Age, has been very mysteriously dug up (from amongst rubbish at Winthrop Hall) (so says the Age) and is this week published. Of course it foots up just 357.

Drowned.—On Saturday last, Thomas Bridlin, of Frankfort, boating to the schooner Massasoit, in attempting to recover a boat which had drifted from the schooner, lying at anchor off Beverly, suddenly sank, not rising again. His body has not been found. He was about twenty years of age.

Knowledge Brings Care.—The Street Commissioner has commenced the work of repairing the abutments of the western span of Kenduskeag Bridge, and the bridge will be closed to travel for two or three weeks, commencing yesterday. The present abutments are of wood, and have been standing, the lower part of them for fifteen years, and the upper parts are the flood of 1846. The expense of rebuilding with wood will be about $1000. Built of stone the cost would be about 15000, the interest of which would rebuild of wood as often as once in three or four years. It is economy therefore to build of wood—and it has been so determined.

White Head Foo Hill. We understand that the steamer M. Stinson had a narrow escape from running on to White Head yesterday morning in the dense fog in consequence of the peg out of the lighthouse keeper to ring the fog bell. The steamer ran by time and stopped five minutes short of her time, and when creeping ahead and coming in sight of the light house, she heard the spring. Had the steamer depended upon the fog bell to notify her of her position, damage would probably have ensued. This neglect of the lighthouse keeper should be looked into.—*Times.*

Rev. Mr. Hapgood, after laboring some fifteen years in Durham, Me., has recently entered upon the pastorate of the church in Bowdoinham. Rev. H. Chapman has entered upon an active pastorate of the church in Machias.

Fire at Kennebunk.—The barns and outbuildings of Mr. Edward Brown were burned on Sunday with all their contents. The family were asleep with their team. Loss estimated at two thousand dollars, exclusive of insurance.

A Thief in Town.—A young man named David P. Sutton, who has been on the police records before, entered the shoemaker's shop of Mr. P. Dwyer, on Harlow St., yesterday, and while having his shoe mended very adroitly transferred a valuable silver watch from a nail over Mr. Dwyer's head, to his (Sutton's) pocket. As he turned to leave the shop, Mr. D. happened to look for his watch, and missing it, charged Sutton with the larceny. It was indignantly denied, but Mr. Dwyer sent a boy for the police—whereupon Sutton was seized by a bystander to take the watch from his pocket and place it on a shelf. Being taken in hand by Deputies Adams and Emerson, and brought before the Police Court, he was ordered to recognize for the sum of $300 for appearance at the Supreme Court—failing to which, he was committed.

I. O. of O. F.—At a meeting of Penobscot Lodge No. 8, of the I. O. of O. F., the following officers were elected for the ensuing term: Thomas J. Wilberly, N. G.; Joseph Libby, V. G.; J. W. Humphrey, Sec'y; Charles Haywood, *Treasurer.*

The officers of Katahdin Encampment, No. 4, for the same term, were as follows:—Charles Haywood, C. P.; Samuel Bradford, H. P.; Phineas Yeaton, S. W.; S. B. Straw, *Scribe*; E. P. Baldwin, *Treasurer*; J. W. Humphrey, J. W.

Fire in Portland. On Wednesday evening the wood recovered in the 2d story of the brick building No. 3 Greenough's Block, at the junction of Free and Middle streets, owned by Byron Greenough, Esq. The lower floor had been recently occupied by Messrs. H. Daisey and Co., as a bookstore, and a portion of their stock remained in the store. The 2d story where the fire was discovered) was occupied by Mr. George D. Hilman—agent for Mr. C. H. Fisher of Boston—as a wholesale bonnet and millinery establishment. The 3d story was occupied by Messrs. H. H. Hay and Co.—who occupied the contiguous stores Nos. 1 and 2—for the storage of glass ware &c.

The stock of Messrs. Bailey and Co. was removed in a damaged condition. Nothing was saved from the stock of Mr. Fisher, and it was with some difficulty that his books and papers were saved. The stock of Messrs. Hay & Co. in the 3d story was destroyed. Mr. Fisher's loss is estimated at about $2500; insured for $1500. Messrs Hay and Co. had insurance on their stock, but the policy did not extend to the chamber of No. 3. They estimate their loss at from $1000 to $1500. Mr. Greenough's loss understand is fully insured upon the building—the interior of which was about destroyed.

Tim Crops.—The Portland State of Maine says that the prospect for a plentiful harvest was never better. Fruit trees of all kinds are literally loaded with fruit. The apple tree is well set through this State. The recent frequent rains cannot but swell the burthen of the grass crop; and other crops are coming well in the country generally.

S. Crane, Esq., of Wilton, has been appointed by the Governor and Council, County Commissioner for Franklin County in place of Francis Lawrence deceased.

The St. John New Brunswicker of the 10th says:

"The Hon. Benjamin Wiggin of Bangor, Fishery Commissioner on the part of the United States under the Reciprocity Treaty, arrived here last evening in the steamer Admiral, accompanied by R. D. Cutts, Esq., Surveyor of the American Coastal Survey, and J. Hatch Esq., Secretary. The U. S. Commissioner brought two carriages, four horses, and servants and will proceed to Nova Scotia next week, with the British Commissioner, to fulfil their duties there."

Bailey Mutiny in Belfast.—We have received a note from Adjutant General Webster, informing us that a Military Brigade Encampment will be held in this city, commencing on Tuesday the 31st day of August, and continuing three days. The troops of the 9th division, (Bangor) the troops of the 4th division, (Rockland); the troops of the 3d division, (Belfast); in connection with several companies of the 7th division, will assemble as above indicated, for review, inspection and camp duty. Major General Cushman of the 9th, and Major General Titcomb of the 4th division, with their Staff, will be present on the occasion. It will be one of the most splendid military reviews ever witnessed in this State.—*Belfast Age.*

Fires in the Provinces.—The St. John's New Brunswicker of the 10th says.

Extensive fires in the woods in the upper part of the Province have recently done considerable damage to buildings, fences, and crops in new settlements. The Hundred says that in the upper Parishes of Charlotte County, much damage has been done to the growing timber, and that a portion of the Railway track and some sleepers were destroyed by the devouring element last week.

The Head Quarters says:

A fire at one time crossed the road between this place and New Maryland; Mr. O'Leary, who lives on the road side, lost his barn, and it was with difficulty his house was saved. A poor man named McLean, living in Stanley, lost all his crop—seven acres of potatoes, oats, buckwheat, corn and beans. We learn from the Sentinel that the fires approached the town of Woodstock, and that one small house actually took fire and was burned, and that it required the utmost exertions on the part of the firemen and others, to save the town. On Saturday night and Sunday we were favored with copious rains which not only put out the fires, but revived the parched earth. The crops are now growing rapidly, and promise an abundance.

The Indian Rebellion.

From the volume of Dr. Duff's Letters from India, just published by R. Carter & Brothers, New York, we copy the following estimates of losses which had taken place up to October of last year

It is impossible to ascertain with accuracy the number of British Christians that have met with an untimely end in the midst of the present awful whirlwind of fire and blood.—One thing is certain, that at the lowest calculation, the number exceeds *twelve thousand hundred.* Of that number, about two hundred and forty have been Indian military officers—I speak in terms of the officers of the Bengal army. Great is their number, the marvel is that amid such terrible scenes it has been so small. I now speak of those who have been actually massacred, and not of those who have fallen in open battle with the enemy. The rest of the thirteen hundred consists of civil servants of the East India Company, contractors in government offices, bankers, traders, agents &c., &c.

The numbers also include *four* chaplains and *ten* male missionaries with their wives. Of the latter, ten, two belonging to the Propagation Society, fell at Cawnpore, and three at Delhi; four of the American Presbyterian Mission at Futtegghur; and one of the Established Church of Scotland at Rawlkote on the Punjaub.

The destruction of mission property in the North-West has been immense. At upwards of twenty stations there has been such devastation, and it some total ruin. The mission, bungalow residences, the schools, the churches or chapels, the libraries and stores of books have been completely destroyed. The extensive printing presses of the American Mission at Allahabad, and the Church of England Missionary Society at Agra, with the fonts of types, and Bible, and tract, and school-book depositories—the accumulated results of the knowledge, experience and toil of many a devoted spirit for many years—have all disappeared. In pecuniary value alone, the aggregate of mission property thus wantonly and wickedly demolished, or swept away, cannot at the *lowest* estimate, be reckoned under *seventy thousand pounds.* But if the Lord in mercy rouses the Christian heart of Britain and America, the seventy thousand will soon be replaced by more than seven times seventy.—And in this way may a glorious exemplification be furnished to the whole of nominal Christendom and actual Heathendom of the Divine principle of overcoming evil with good.

To prevent all misconception with reference to the missionaries, it ought to be emphatically noted that *nowhere has any special enmity or hostility been manifested towards them by the mutineers.* Far from it. Such of them as fell in the way of the rebels were simply dealt with as the other Europeans were dealt with. They belonged to the governing class, and as such must be destroyed to make way for the re-establishment of the old Mohammedan dynasty. The same actuating motive led to the destruction of *many Christians and all others who were friendly or supposed to be friendly to the British Government.* I feel more than ever persuaded of the reality of the conviction which I entertained from the very first, that this monster rebellion has been *mainly* of a *political*, and but very *secondarily* of a *religious* character.

The following was written in December last, and from recent accounts we judge that things are not much better now:

The representation now given I do believe to be, in its leading features, the only true one. And I urge were seriously to reflect, it is the only one that can adequately account for the phenomena of the unparalleled struggle which has been going on for months past. Never has the enemy been met without being routed, scattered, and his guns taken; but though constantly beaten, he overmore rallies and appears again ready for a fresh encounter. No sooner is one city taken or relieved than another threatened. No sooner is one district pacified than the policy did not extend to the chamber of No. 3. They estimate their loss at from $1000 to $1500. Mr. Greenough's loss understand is fully insured upon the building—the interior of which was about destroyed.

Tim Crops.—The Portland State of Maine says that the prospect for a plentiful harvest was never better. Fruit trees of all kinds are literally loaded with fruit. The apple tree is well set through this State. The recent frequent rains cannot but swell the burthen of the grass crop; and other crops are coming well in the country generally.

S. Crane, Esq., of Wilton, has been appointed by the Governor and Council, County Commissioner for Franklin County in place of Francis Lawrence deceased.

The St. John New Brunswicker of the 10th says:

"The Hon. Benjamin Wiggin of Bangor, Fishery Commissioner on the part of the United States under the Reciprocity Treaty, arrived here last evening in the steamer Admiral, accompanied by R. D. Cutts, Esq., Surveyor of the American Coastal Survey, and J. Hatch Esq., Secretary. The U. S. Commissioner brought two carriages, four horses, and servants and will proceed to Nova Scotia next week, with the British Commissioner, to fulfil their duties there."

Defeat of U. S. Troops by Indians.

WASHINGTON, July 15.

The War Department has received official intelligence, stating that Col. Sturgeon, with a command of five commissioned officers and 153 rank and file, was attacked and defeated by a body of Indians on the 17th of May, about 65 miles north of the Snake River. The battle lasted from 7 in the morning until a short time before sunset, when the ammunition being nearly exhausted and the musquetoons being entirely useless against the enemy, a retreat and forced march to the crossing of the Snake River became necessary. Several were killed and 5 have since died of their wounds.

Major Jeremiah W. Dashiell has been dismissed from the army by the President, for that he had, contrary to the official order, misapplied satisfactorily a deficiency in his accounts of public money, and having also failed to promptly repeated instructions from the Paymaster General to pay over the balance so acknowledged by him to be in his hands.

Such times as the present should cause every business man, with a family dependent upon him, to consider what the condition of those he leaves might be should he be suddenly taken away by death. At one now fully notice the vacillation and instability of fortunes made in business. The millionaire merchant of yesterday is to-day the insolvent debtor. To guard against such misfortune let every man insure his life for the benefit of his family, which insurance cannot be disturbed by his creditors. The Mutual Benefit Life Insurance Company offers security and advantages not surpassed by any institution in the country.—Investments are in first bonds and mortgages on real estate worth more than double the amount loaned. One half of the President on Life Policies may be paid by note bearing 6 per cent interest. Dividends are declared annually to those who have paid two life premiums—there are no stockholders to take a part of the profits which rightfully belong to those who are insured for life.

Prospectuses, statements and applications will be furnished (without charge) and all information desired will be given by the undersigned Agent.

N. B. Persons residing in any portion of the country, desirous of insuring their lives, will be supplied with all the express any papers and with minute instructions to enable them to make applications by addressing the undersigned.

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the lowly line giving entire Through Tickets, including meals on the Isthmus

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 600 miles of dangerous lake and river navigation over rocks and shoals

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Steamers and *short* passage without any detention on the Isthmus!

If Tickets must be secured by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets then signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Company at this city C. L. HARTLETT Agent,

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Leighton, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday at 5 o'clock P. M.

Fare in Cabin, $1 25
Fare on Deck, 1 00
Freight taken as usual

Each Boat is furnished with a large number of State Rooms for the accommodation of Ladies and families, and travellers are reminded that by taking this line much delay of time and expense will be made, and that the uncertainty of arriving in Boston at late hours of the night will also be avoided

The Boats arriving in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 addition at value. L. BILLINGS, Agent

American & Foreign Patents.

R. H. EDDY,
Solicitor of Patents,
(Late Agent of U S Patent Office, Washington under Act of 1836.)
76 State Street, opposite Kilby st., BOSTON

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Special Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and opinions or other advice rendered in all matters touching the same—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington

This Agency is not only the largest in New England but through its invaluable advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that no other office of the kind gives the charges for professional services to inventors. The immense practice of the subscriber, during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office as faithfully for processing patents—There were few, if any, persons better in their capacity, who took more trouble before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the most learned and most skillful Patent Solicitors in the United States, and have no hesitating recommending inventors that they cannot secure a more competent and upright worthy, and more capable of guiding their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE,
Late Commissioner of Patents

(From the present Commissioner.)

Aug. 17 1857.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston has been almost only engaged in the transaction of business with the Office, to a degree that leads me to regard him as one of the most learned and most skillful practitioners in the art, and the most expert and successful practitioner with whom I have had official intercourse CHARLES MASON

For wrapping Silks and other fine articles it is excellent, as it preserves moths. 40 cts. lb.

For Indentures and Engrossing 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is equally valuable, and much superior to any other, as the moisture of the climate does not destroy it—the properties imparted in the pulp being a preventive. All the Southern States, Cuba, the West Indies, and the Central American States use public records can be kept over 20 years, without the ordinary paper while the ink and other chemicals inserted in this paper makes it indelible by the ravages of time. It is also proof against mosquitoes and other vermin, which feast on and destroy all other papers now in use.

The Company have now in operation Mills in Morris County, N. J., of sufficient horse power, and are able to fill all orders for Paper at the shortest notice

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it like wise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in a I confidence, recommend it to the public as the best article in the market

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers

The horse used in this Hive for storing honey, are the best adapted in the state, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee Hives and individual rights.

Ayer's Pills

Subjoined are the testimonials from various of their effects in their practice

AS A FAMILY PHYSIC

From Dr. E. W. Cartwright of N. Y.

"Your Pills are the prince of cathartics, and as a family physic, they are unsurpassed, but very certain and effectual in the cure of those obstinate diseases which require the most powerful cathartic of medicine."

FOR JAUNDICE AND ALL DISEASES OF THE LIVER

From Dr. Theodore Dodge of Boston

"I do not only use your Pills myself for the purpose, but I prescribe them very largely upon the Liver very much. I find them perfectly safe and sure in their effects, and I have the confidence of all my patients in their use."

DYSPEPSIA—INDIGESTION

From Dr. Harris of Ohio

"The Pills you sent me last year I have used in my practice ever since, and they are truly an extraordinary pill. They are adapted to the disease for which they are recommended to work upon the liver, and they are prepared in a manner to preserve their virtues for a long time, and I have found them to do so. I have the confidence of all my patients in their use."

DYSENTERY—DIARRHŒA—RELAXATION

From Dr. J. P. Kane of Philadelphia

"Your Pills have had a fair trial in my hands, and I find them in every way reliable. They have proved an excellent remedy in the cure of dysentery and diarrhœa, and I find them very acceptable and efficacious in the treatment of my children."

INTERNAL OBSTRUCTIONS—WORMS

From Rev. F. Mallory of Philadelphia

"I find one certain effect of your Pills, and that a proper one, is to remove the obstruction which when they are used, I find invariably to be the cause of disease. I have found them very essential to cleanse the system, and I find them so much the best pills for the purpose that I can recommend to my patients."

CONSTIPATION—PILES

From Dr. J. P. Kane of Philadelphia

"Your Pills have been used in my family for some time, and we find them to be as efficacious as they are agreeable. We prize them for the relief they have afforded us in the case of constipation, which is the source of so much suffering with so many, and which, if not properly attended to, is productive of the most dangerous consequences. I have also found them very acceptable and efficacious in the treatment of my children, when suffering from derangement of the stomach and bowels, and I have no hesitation in recommending them to my friends and the public as a family medicine of the first value."
